David Sutton  
140 Sussex Avenue  
Toronto, Ontario  
M4K 2P9

Dear David:

I was walking through the Annex the other day when I noticed how the trees are changing into colourful works of autumnal art, ready to let their brilliant leaves fall directly into your eavestrough. And I thought to myself, "I may not have time to rake David's lawn, but I know of a way to keep his rain gutters clean!"

***Space-age foam makes clogs a thing of the past***

Eavestuff® is made from a revolutionary aerospace-grade polyether foam filter that resists fungus, mold, mildew, heat, and freezing. Because it fits snugly inside your eavestrough, there's no room for debris like leaves, twigs, or annoying pine needles to accumulate. And because water flows freely through your gutters, there's no standing water for West-Nile-Virus-carrying mosquitoes to breed!

***Save money and leave your eavestrough alone for 25 years***

Eavestuff costs about half the price of aluminum gutter covers and other competing products, and stays in place with a 25-year no-clog warranty. It doesn't shrink, melt, collapse, dent, lift, or fade, and fits so invisibly, you won't even know it's there! Plus, if you order your installation of Eavestuff before November 30<sup>th</sup>, you save 30% off our already low prices – that's like paying 65% less for the privilege of not having to clean your rain gutters for over 25 years!

***Call now and stop worrying***

Let us come to your home and install Eavestuff for you. Just call 1-888-577-7707, and we'll tell you more about this exciting offer. Just think – you could be enjoying this beautiful fall foliage instead of fishing it out of your eavestroughs!

Sincerely,

Ed Holmes, Inventor and President  
Eavestuff Ltd.

PS: Remember to order your installation before November 30<sup>th</sup> to take advantage of our fabulous savings!
